Guidelines for working with Pharmaceutical Companies

- ❖ In an arms-length relationship with pharmaceutical companies, CLLPAG will provide patient perspectives while protecting individual patient privacy.
- ❖ CLLPAG accepts pharmaceutical funding for support of CLLPAG activities. Pharmaceutical companies do not have any control of content or provide direction to these activities. This means we will not:
 - Distribute branded information on behalf of one company
 - Provide personal information of our members to drug companies
 - Endorse any product or brand
- ❖ Requests from pharmaceutical companies will flow through the Chair, with actions requiring board approval.
- ❖ Board members will not accept personal gifts from pharmaceutical companies. Board members will declare any perceived conflicts with pharmaceutical companies.
